# CBP Seaport Facility Design

Develop an outline of space requirements that reflects CBP operational flow- for cruise, ferry, and seaplane facility types.

Short Term Goals: Develop CBP Seaport Technical Design Standards for seaport passenger processing.

Ensure completion of a final draft version allowing sufficient time for industry review- through the American Association of Port Authorities (AAPA).

Anticipated delivery of a final draft for review by internal and external stakeholders in Fall 2006.
