

Comunidades Virtuales

Desde su oficina:

- Usted puede participar en la Iniciativa SHARE.
- Una manera para que los comités, grupos de trabajo y socios de la AAPA comuniquen, colaboren y compartan información.
- Crea un archivo de recursos y respuestas a preguntas comunes que pueda ser accedido por medio de búsquedas.
- Al suscribir al listado de correos de una comunidad, los socios reciben un mensaje cada vez que alguien publique algo nuevo en el foro y/o la sección de noticias.

Funcionalidades

- Los foros permiten que los socios de la comunidad creen tópicos de discusión donde se puede hacer preguntas y publicar respuestas.
- El compartimiento de documentos permite que los socios y el personal publiquen y descarguen documentos (MS Word, PDF, PowerPoint)
- Noticias crea una fuente para recibir información de los administradores, el liderazgo del comité o el personal.

Pagina Principal

(muestra)

The screenshot displays the AAPA website interface. At the top left is the AAPA logo with an 'ONLINE' banner. A navigation bar contains 'Members Only Home | Search Directory' and 'Login | Logout | Contact Us'. A left sidebar features a user profile for 'Joe Smith' with an 'Update Address Here' link, and links for 'Members Only Home' and 'Communities' (Your Communities, Subscribe/Unsubscribe). The main content area is titled 'Communities Home Page' and is divided into three columns. The first column, 'My Community News', shows a news item for the 'Information Technology Committee' titled '2005 IT/Operations Seminar - NEW!' dated 'Fri, September 24, 2004 06:23 PM'. The second column, 'Communities you are subscribed to for e-mail updates', includes a 'mark all read' button and two entries: 'Information Technology Committee - 5 NEW!' and 'Operations Committee - 4 NEW!', each with a brief description and a 'Subscribe/Unsubscribe' link. The third column, 'Communities that you participate in', lists 'AAPA Member eCommunity - Members Only' with a description of its purpose. A 'Click here for help' link is located at the bottom center.

Groundbreaking Marks Expansion for TriStar Transload PNW at Port of Vancouver USA

TriStar Transload PNW has begun construction for expanded operations at the Port of Vancouver, USA, on its new 12-acre site bordered by Lower River Road and Gateway Avenue in the northwest corner of Terminal 4 at Parcel 1C.

Turning the traditional spade of dirt at a groundbreaking ceremony on March 22 were President Peter Howe and Vice President Burke Rice, of TriStar Transload PNW; Port Commissioners Nancy Baker, Bob Moser and Arch Miller, and Port Executive Director Larry Paulson. The event was symbolic of the close partnership shared by the Port and TriStar Transload PNW since the company moved to the Port of Vancouver, USA. Tapani Underground, Inc. of Battle Ground is serving as general contractor for the project.

"The port was instrumental in helping us relocate to Vancouver 2 1/2 years ago in a very short time frame," said Howe. "They continue to demonstrate their commitment to customer service as we work together to move our facility to a larger site."

Issue Based Forums - NEW!

What issues would the committee like to see as forum topics within this discussion group? Some ideas could be credentialling (TWIC), access control and gate processing, wireless applications, RFID and other track and trace, terminal operating systems, the list could go on and on...

By Mr. William Brotemarkle on Fri, September 24, 2004 11:11 PM

RE: Issue Based Forums - NEW!

I would really like to see a forum on credentialling. With the TWIC program in the prototype phase, I would like to know how the pilot projects are going and how the technologies are affecting business processes.

Groundbreaking Marks Expansion for TriStar Transload PNW at Port of Vancouver USA

TriStar Transload PNW has begun construction for expanded operations at the Port of Vancouver, USA, on its new 12-acre site bordered by Lower River Road and Gateway Avenue in the northwest corner of Terminal 4 at Parcel 1C.

Turning the traditional spade of dirt at a groundbreaking ceremony on March 22 were President Peter Howe and Vice President Burke Rice, of TriStar Transload PNW; Port Commissioners Nancy Baker, Bob Moser and Arch Miller, and Port Executive Director Larry Paulson. The event was symbolic of the close partnership shared by the Port and TriStar Transload PNW since the company moved to the Port of Vancouver, USA. Tapani Underground, Inc. of Battle Ground is serving as general contractor for the project.

"The port was instrumental in helping us relocate to Vancouver 2 1/2 years ago in a very short time frame," said Howe. "They continue to demonstrate their commitment to customer service as we work together to move our facility to a larger site."

TriStar Transload PNW began its operations at the Port on a three-acre site at the northeast corner of Terminal 2, north of the grain elevator. The company transloads finished lumber and a variety of other products from truck to rail for the building materials industry. They ship product to destinations throughout the United States. In less than three years, TriStar had expanded its operations to cover six acres. The newest location is twice that size. Site preparation and paving, relocation of the company's modular office building, landscaping and new rail lines to serve the site are scheduled for completion early this summer. Future plans include a 15,000 square foot storage building. With the larger facility, TriStar expects to more than double operating and output capacity.

Página Principal para la Comunidad de la Delegación Latinoamericana (muestra)

The screenshot displays the 'Community Home Page: Comunidad Virtual para la Delegación Latinoamericana'. At the top, there is a search bar with a dropdown menu set to 'All' and a 'Go!' button. Below the search bar, the page is divided into several sections. On the left, a blue sidebar contains navigation links: 'AAPA Profile' (with a sub-link 'Joe Test (Update Address Here)'), 'Members Only Home', and 'Communities' (with sub-links 'Your Communities', 'Subscribe/Unsubscribe', 'Local Preferences', and 'Manage'). The main content area is titled 'Community Home Page > Community Home Page'. It features a 'News' section with the message 'No active news items are currently in this community' and a link to 'View News Archive'. To the right, there is a 'Forums' section with four sub-forums: 'Misceláneo', 'Operaciones Portuarias', 'Protección Ambiental/Control de Navegación', and 'Seguridad Portuaria'. Each forum has a brief description of its purpose. At the bottom of the main content area, there is a 'Document Archive' section with the message 'No hot documents are currently in this community' and a link to 'View complete document archive'. A footer at the very bottom of the page contains the text 'Click here for help | members only home'.
